

JON OLSSON ROCKS

Jon's worldwide quest for dominance continues. Fast cars, fancy fads and ever-changing women on his signature skis are just part of the focus. More important is the fact that Jon Olsson continues to host his own top-level invitational event, and he gets to ride the world's best mountains in search for the next riding revolution.

ROCK ON

A. No. 311158

J.O. PRO

Olsson's full-on competition ski. Aircoat HGT2 Tech makes this the lightest, fastest-spinning setup on the market. Still, Jon's design and construction inputs make it very fast and ultra-steady for big leaps and landings.

Lengths:	160-169-178
Dimensions:	113-77-102 @ 178
Radius:	20.1 @ 178
Features:	AIRCOAT Hollow Glass Technology HGT2 Ultra-fast UHM C Die Cut Base
Bindings:	HEAD Mojo 15 (matt black/silver)

A. No. 311048

MOJO 94 SW

Our NEW twin-tip freeride ski with full all-mountain capabilities. Extremely versatile and a real pure-bred stallion when it comes down to just you and the mountain. Yeehaw!

MOJO ONE

This is the original team park ski. Made for smooth take-offs and landings in tomorrow's parks and pipes: Eye-to-eye with the ever increasing size of transitions and tricks. Super light with AIRCOAT.

Lengths:	160-169-178
Dimensions:	113-77-102 @ 178
Radius:	20.1 @ 178
Features:	AIRCOAT Hollow Glass Technology HGT2 Ultra-fast UHM C Die Cut Base
Bindings:	HEAD Mojo 12 (matt black/silver)

A. No. 311128

MOJO MIX

Riders who really work the park need heavy-duty skis. This is the kind of twin tip built to last, with performance that goes all the way from your very first trick to the last rail (of the day).

Lengths:	154-163-172-181
Dimensions:	112-79-106 @ 172
Radius:	19.1 @ 172
Features:	Heavy-duty Construction E Base Black
Bindings:	HEAD Mojo 11 (matt black/silver)

A. No. 311028

SUPERMOJO 105

Riding in Alaska you might suddenly need to outrun anything from a pitbull to a grizzly to an avalanche (not that we endorse that kind of behavior, etc.). That's why 08.09 puts a new, faster base on this steep and deep baby.

Lengths:	171-181-191
Dimensions:	130-104-121 @ 181
Radius:	32.1 @ 181
Features:	Carbon Jacket Ultra-fast UHM C Die Cut Base Alaska-proven shape Heavy-duty Construction
Bindings:	HEAD Mojo 15 (matt black/silver)
